## Chapter 534

### New/Old Business:

Angel Flight Southeast & EAA Chapter 534 Halloween Presentation! Thanks Jodi Soule for your hard work.

### OCT 25TH YOUNG EAGLES

### Young People from the Leesburg Area Take to the Air Thanks to the Experimental Aircraft Association

By Ted Luebbers

Under a perfect blue sky flying day, 14 young folks from Fruitland Park and Wildwood, Florida experienced their first flight in a single engine aircraft courtesy the Experimental Aircraft Association Chapter 534 at the Leesburg International Airport. Everyone congregated at the chapter hangar on Saturday October 25, 2014 to take part in the EAA Young Eagles program designed to acquaint children with general aviation. Many times this program will inspire individuals to acquire their own private pilot license or seek careers in aviation. EAA offers this program nationally through its local chapters to young people ages 8 to 17. On a national basis EAA is approaching 2 million Young Eagles-Flights.

On this day children of families associated with the Helping Hands Program of the United New Covenant Methodist Church in the Villages, Florida had fun flying around the greater Leesburg area. They arrived at the hangar with their parents or guardian, signed up for the Young Eagles Flight Program, met their experienced EAA pilot and headed out to the flight line. At that point they were instructed how to preflight the aircraft, climbed aboard and headed for the wild blue yonder. Once airborne many of them actually took the controls of the plane under the careful supervision of the pilot.

EAA chapter members supplied 5 fixed wing single engine aircraft and one helicopter for the day's activity and many chapter members were there to shepherd kids around the airport ramp area and to take care of all the necessary paper work. A good time was had by all.

For more information about EAA chapter 534 you may go to the following web site.

### Looking for Personal Stories involving aviation

If any of our members would like to share any aviation type experiences they've had through the years, we are interested in hearing them. I'm sure these would be educational, thrilling, enlightening and heartwarming. If your experiences are military, career, or personal, we would like to hear them.

Please contact me: Laura Vaughn ([mailto:lv3660@hotmail.com?subject=Aviation Stories](mailto:lv3660@hotmail.com?subject=Aviation%20Stories))

### EAA CHAPTER 534 OFFICERS:

President: Joel Hargis  
Vice President: John Weber  
Secretary: Steve Tilford  
Treasurer: Ed Cihoski  
Directors: Robert Vaughn, Steve Barber, Paul Adrien, David Pierce.

Joel Hargis  
EAA Organization,  
EAA Young Eagles program

October 29, 2014

Dear Joel,

I would like to express my appreciation, on behalf of the Helping Hands outreach ministry, to everyone involved in the Young Eagles Program held on Saturday October 25. You, the pilots, and all those involved provided an incredible experience for the Helping Hands children to introduce them to flying, all of which have never been an airplane or helicopter before.

Saturday was a beautiful day for flying, of course, your pilots probably feel that any day is a great day for flying, but it was a special day for these kids to experience something they will remember the rest of their lives.

Please convey to all those involved of how much Helping Hands, and the kids, appreciated and enjoyed this fantastic and educational opportunity.

Thank you,

Bob Becker  
Co-chair Helping Hands
